

PegatronTM

Compact Tail Fin position light only

AVEO
ENGINEERING

Basics

Two position lights sit high off the ground on the Gulfstream tail and changing these lights has to be a royal pain you know where. Aveo somehow made the new Pegatron drop-in replacements in a hemispheric shape that looks sleek. And of course, the same old story ... brighter, lighter and more reliable.

Functional replacement for the following platforms & parts:

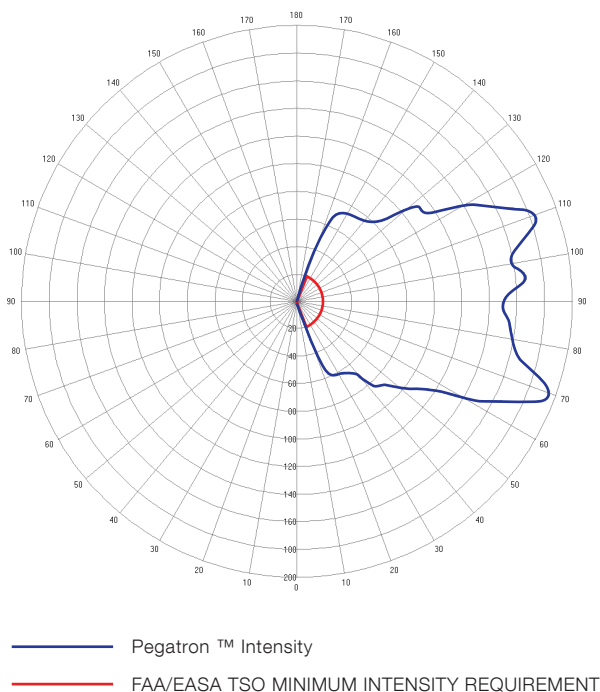

Gulfstream GII, GIII, GIV, G450, GV and G550

Honeywell A2064, B9730, 30-2368, 30-2382

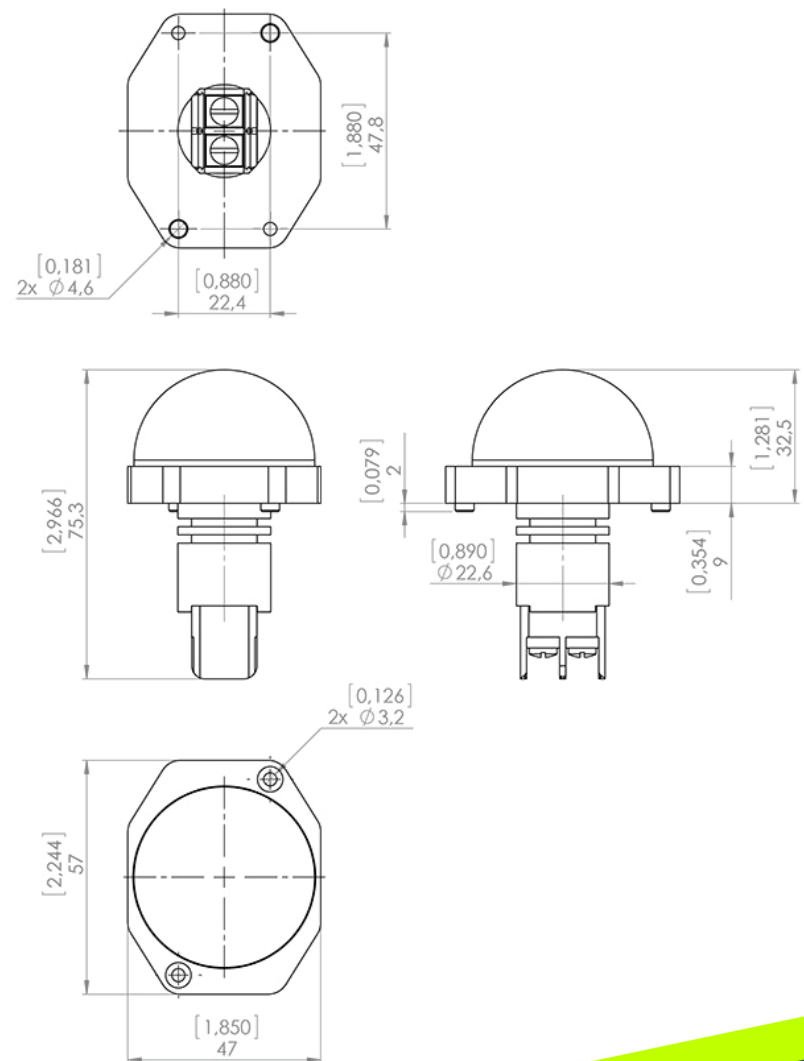

Specification

Certification	ETSO and STC Pending
Qualification	Fully qualified to DO-160D
Operating voltage	9-36V DC
Over-voltage protection	80V (1s)
Reverse polarity protection	Yes
Over-voltage shut down	38.5V DC
Under-voltage protection	Yes
Operating temperature	-40°C to +85°C
Over-temperature protection	Yes
Output power	5.2W
Waterproof	Yes
Vibration-proof	Yes
Shock-proof	Yes
Dust-proof	Yes
Weight	0.234 lbs / 57g
Width	2.24" / 57mm
Length	1.85" / 47mm
Height above bracket	1.28" / 32.5mm
Overall height	2.95" / 75mm
Warranted life to FAR specifications	Lifetime warranty
